IYCF is a public health initiative and is of great importance globally. Under this program, Faculty of Community Medicine department had visited various Basic Health units and civil dispensaries situated at the outskirts of Peshawar and arranged awareness programme in the **1st and 2nd week of December 2022**. Patients, Lady Health workers and Health staff were involved in the activity of awareness. IYCF importance, correct feeding practices, promotion of breast milk for infants and spacing in pregnancies for healthy life of mother and child were discussed.

On **15th December 2022**, a final closure ceremony was arranged at Conference hall community medicine department Khyber medical college Peshawar. Participants were faculty of Community Medicine department, LHWs from various BHUs and CDs, LHW Coordinator and respected professor of the Khyber medical college. Certificates and Shields were given to LHWs for their performance.
